浙江大学 ZHEJIANG UNIVERSITY

中国国际大学生创新大赛
China International College Students' Innovation Competition

Serbia Regional Competition of the China International College Students' Innovation Competition

Competition Themes

Open to university students and youth innovation/entrepreneurship teams from Serbia and neighboring countries. Entries should focus on innovative practices in areas such as technological innovation, green development, digital economy, smart agriculture, bio medicine, public welfare and rural development, AI+ , etc.

Team Requirements

Participants must be under 35 years of age. They must be currently enrolled students at a regular higher education institution in Serbia or a neighboring country, or graduates within 5 years of graduation from such institutions. Teams register as a unit. Cross-institutional team formation is allowed. Each team shall have 2-15 members.
The institution of the team leader shall be the representative school for the project.

Competition Categories

Undergraduate Category

The project must have a good creative concept and a relatively mature product prototype/service model, but must not have completed industrial/commercial registration at the time of registration. The leader and all members must be current undergraduate students.

Postgraduate Category

The project must have a good creative concept and a relatively mature product prototype/service model, but must not have completed industrial/commercial registration at the time of registration. The leader must be a current postgraduate student; members may be current postgraduate or undergraduate students.
