

Senior Software Engineer (.NET)

Gi Group HR Solutions d.o.o. as a leader in the region and part of Gi Group, prestigious and one of the leading consulting companies in the field of human resources, is able to offer comprehensive solutions in all areas of human resources management. We provide recruitment and selection services under our new brand Wyser.

On behalf of our client, Zühlke, we are looking for a highly motivated Senior Software Engineers to join their Belgrade office.

Within the Zühlke Group, they position themselves as a center of expertise for distributed, agile software development. Together with colleagues in Switzerland, Germany, the UK and Austria they work on challenging software projects involving the latest technologies and variety of known practices.

Our offering

Successful candidates will have an opportunity to benefit from:

- Ability to work with most technically gifted people in the industry
- On-going training (approx. 5 % of your time)
- Clear career path and defined personal goals with achievement based career prospects
- Permanent contract with competitive salary
- Projects based in Belgrade with opportunities for working temporarily at other Zühlke locations

Desired Skills and Experience

- 4+ years of professional experience in software development
- Advanced programming skills and a strong understanding of OOP concepts (UML)
- Hands on experience with .NET Framework including web technologies
- Working with relational databases, SQL and data persistency
- Understanding concepts of agile methodologies and tools used to support it
- Excellent knowledge of English language

Responsibilities

You will be asked to:

- Show analytical, yet innovative mindset and the desire to challenge conventional thinking
- Collaborate closely with colleagues in creating modern web, mobile or desktop applications
- Show analytical and methodical approach for solving complex problems
- Apply Scrum and agile practices in your daily work
- Create quality solutions through application of good coding and testing practices

If you are interested in the position and your profile fits the above stated requirements send your CV directly to wyser.serbia@gmail.com or follow this link to fill out an on-line application:
