

# UBISOFT GAME DEV INTERNSHIP 2018

Ubisoft Belgrade is looking for future game developers!

Take part in our 3 months long, paid, full-time internship!

Are you a programmer looking for a way to gain experience in making games?

Apply for our first ever Ubisoft Belgrade Game Dev internship and learn to develop video games in C++, along with colleagues and mentors who will guide you throughout the process

What you need to have:

- General knowledge of C++ programming
- Advanced English language skills
- Ability to work in a team
- Passion for video games

What we are offering:

- Opportunity to learn how to develop a game (the production cycle of a video game)
- Programming skills applied to video games
- Chance to work hand by hand with experienced game developers all over the world
- Cozy and friendly work environment
- Your own Uplay account & access to our gaming corners

The best trainees are chosen at the end of the period and are offered employment in Ubisoft.

Join us and become a key part in the gaming world!
